# ABOUT INUGSC

**Welcome to the International Undergraduate Surgical Conference (iNUGSC), the largest student-led surgical conference in the UK!**

We welcome all students who even have the vaguest of interest in knowing what the surgical field is about. We bring in a wide variety of surgeons from diverse backgrounds and in varying parts of their surgical career to give you the most holistic perspective of their work.

Feedback from previous attendees:

*I learned that the fields within surgery are constantly changing, innovating, and improving, with lots of advancements on the horizon and opportunities within the field.*

*I loved the workshops, they were super interesting and informative, especially Cardio VR and 3D Printing, which made me excited for the future of medical education and innovation.*

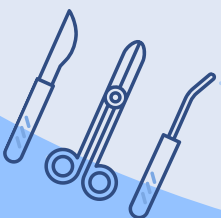

*I was really impressed with the organization throughout the day, the communication was excellent and committee were always very helpful and kind.*

# WHAT IS THE PURPOSE OF ATTENDING A CONFERENCE AS A MEDICAL STUDENT?

You get to see different perspectives beyond what the medical school can show you and meet many like minded medical students both from the UK and internationally – who might be in the exact same situation as you. Even if you're not interested in surgery already there is plenty you can still look forward to:

- ➔ learn **course required** skills like suturing ahead of your peers
- ➔ see medicine out of the usual textbook and lecture context that you would have gotten used to
- ➔ have a glimpse into what a **career in surgery** is like
- ➔ attend **fun and interactive workshops** with people at the forefront of their specialties
- ➔ food and drinks provided for both days

# FLAGSHIP EVENTS OF OUR CONFERENCE

**VIRTUAL REALITY** → immerse yourself in cardiac and neuro anatomy and understand surgical procedures on a whole different level with our highly anticipated workshop

**LAPAROSCOPIC SURGERY** → a rare opportunity to use high quality laparoscopic equipment to learn a variety of handling and maneuvering skills

**BATTLE OF THE SPECIALITIES** → an excellent way to introduce yourself to various specialties if you don't have much of an idea as to what they're about

**FLAP RECONSTRUCTION** → delve into wound healing, skin grafts and local skin flaps in a workshop essential for anyone interested in plastics and aesthetics

**HUMANITARIAN SURGERY** → learn about surgery without the pristine sterility and ample preparation time outside the OR, from surgeons working in the most hostile of environments ranging from wilderness to war.

**WHAT IF I CANNOT MAKE IT IN-PERSON?**

**YOU COULD JOIN US ONLINE!!**

Although we cannot offer practical workshops to participants joining us online, we still have a range of speaker events that you can attend from the comfort of your own home!

**WOMEN IN SURGERY PANEL**

**GLOBAL/HUMANITARIAN SURGERY**

**BATTLE OF THE SPECIALTIES**

**SURGICAL PORTFOLIO BUILDING**

**CASE STUDIES**

**...AND MORE TALKS DELIVERED BY RENOWNED SURGEONS!!**

Follow our Instagram @inugsc.ucl or sign up for our mailing list for the latest speaker announcements!
